# AEROSTRIP®

fine bubble diffusers by AQUACONSULT

# AEROSTRIP® TYPE Q

## DIMENSIONS AND WEIGHTS / ABMESSUNGEN UND GEWICHTE

| Type | L<br>(mm) | Diffuser Area / Belüfterfläche<br>(m <sup>2</sup> ) | Weight / Gewicht<br>(kg) | max. Air Rate / max. Luftmenge<br>(Nm <sup>3</sup> /h) |
|------|-----------|-----------------------------------------------------|--------------------------|--------------------------------------------------------|
| Q1,0 | 1000      | 0,175                                               | ca. 2,8                  | 21,0                                                   |
| Q1,5 | 1500      | 0,262                                               | ca. 4,4                  | 31,5                                                   |
| Q2,0 | 2000      | 0,350                                               | ca. 5,7                  | 42,0                                                   |
| Q2,5 | 2500      | 0,438                                               | ca. 7,1                  | 52,5                                                   |
| Q3,0 | 3000      | 0,525                                               | ca. 8,4                  | 63,0                                                   |
| Q3,5 | 3500      | 0,613                                               | ca. 9,8                  | 73,5                                                   |
| Q4,0 | 4000      | 0,700                                               | ca. 11,1                 | 84,0                                                   |

Special length on request / Sonderlänge auf Anfrage erhältlich

## MATERIALS / WERKSTOFFE

|                         |                     |                            |                    |
|-------------------------|---------------------|----------------------------|--------------------|
| <b>Base Profile:</b>    | PVC                 | <b>Träger-Profil:</b>      | PVC                |
| <b>Peripheral Clip:</b> | PVC                 | <b>Stirnklemme:</b>        | PVC                |
| <b>Membrane:</b>        | Polyurethane (PUR)  | <b>Membrane:</b>           | Polyurethan (PUR)  |
| <b>Air Connection:</b>  | PVC                 | <b>Luftanschluss:</b>      | PVC                |
| <b>Strip Fasteners:</b> | Stainless steel 304 | <b>Befestigungsleiste:</b> | Edelstahl (1.4301) |
| <b>Clamp Hose:</b>      | PE/PA               | <b>Klemmschlauch:</b>      | PE/PA              |

## DIFFUSER FASTENING / BELÜFTERBEFESTIGUNG

Strip fasteners are included in our scope of supply.  
Befestigungsleisten sind im Lieferumfang enthalten.
