Management of Right of Entry is subject to the relevant provisions outlined in state and federal laws.

6. Freedom of Association

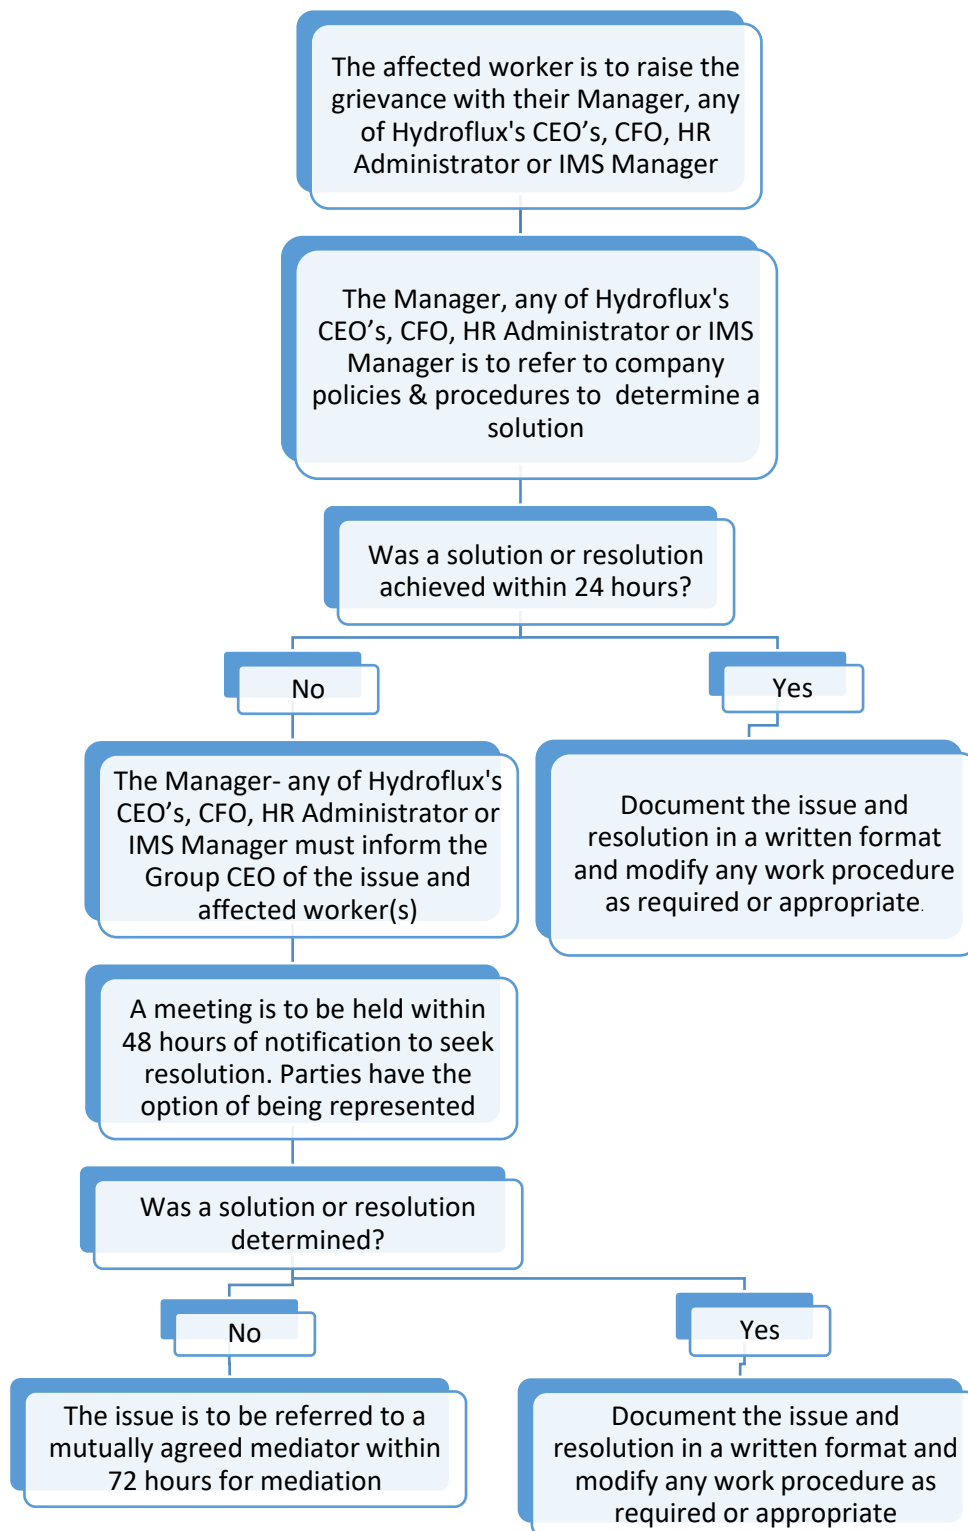

Hydroflux Epco acknowledges that employees and sub-contractors have a right to belong or not to belong to any industrial association they choose, without it affecting their employment. For employees “industrial association” generally refers to a union. This means that, all things being equal, an employee who is a member of a union (or other association) should not be treated less favourably than an employee who is not a member of a union. The reverse is also true.

7. Dispute Resolution and Grievance Procedure

All parties are required to make every effort to resolve grievances or disputes with their employees and applicable parties at the appropriate level, in accordance with the procedure outlined in the relevant award or workplace arrangement.

The parties are committed to continue working towards the elimination of lost time through close consultation and cooperation with those directly affected, and through the effective operation of these Grievance/Disputes Settlement Procedures as outlined on the next page:

Grievance/Disputes Settlement Procedure

All documentation of the issue should be forwarded to staff.confidential@hydroflux.com.au

Work should continue without interruptions from industrial stoppages, bans and/or limitations whilst the above procedures are being followed. Where Hydroflux is not the principal contractor, the parties to the dispute shall involve the principal contractor.

8. Workplace Relations Management Plan

Where required by legislation or when a project warrants due to its size or complexity, Hydroflux will develop and track a Workplace Relations Management Plan (WRMP) to identify possible industrial relations issues relevant to commercial construction and details specific actions for occurrences of grievance disputes, site issues or any other unforeseen action that may impact productivity.
